「原材料は限りなくシンプルに」

Yogurt drinks have been popular in Japan for a longtime, and one of the best manufacturers of these healthy, organic drinks is Marumaru Shingo of Hachinohe. Its Premium brand is especially delicious, with a deep, rich taste and a refreshing finish. Shingo uses 100% whole milk from its very own cattle on a farm in Shingomura. The temperate climate in this region is easy on livestock, and the cattle produce pure, delicious milk that is heated at a low temperature for 48 hours to bring out subtle flavors. It's a favorite breakfast drink for farmers and perfect for people on the go who need a quick pick-me-up that is healthy, refreshing, and nutritious. Shingo sells its yogurt in 3-, 6-, and 12-bottle sets. Sizes range from 900ml (about 30 oz.) to 150ml (about 5 oz.). If you're looking for a healthy alternative to those sugary yogurt drinks, try one of Marumaru Shingo's drinkable yogurts at Uwajimaya supermarkets.

ガラクトオリゴ糖由来の上品な甘み、  
深いコクすっきりした後味
